Dear MSAD #56 Residents:

Included here is the MSAD #56 District Report Card as required by the No Child Left Behind Act. The report includes links to performance charts for each school. Should you have questions about the data presented, please contact our Central office.

Our administrative team and professional teaching staff use all data, including the Maine Educational Assessment (MEA) data reported, here to guide instructional decision-making for your children.

Thank you for continuing your support of our schools. We invite you to visit and to become involved at whatever level feels comfortable for you. Our communities and your input are important to us as we move into changing times in education.

Again, please contact us with any questions.

Sincerely,

Raymond L. Freve
