

## COMMUNITY USE OF SCHOOL FACILITIES

DEFINITION: "School facilities" are buildings and grounds, parking lots, playing fields and fixed equipment.

It is the Board's desire that the local taxpayers who provide the school should be able to obtain maximum use of the facilities, to the extent consistent with the primary educational function of the school. It is intended that community uses for educational, recreational, social, civic, philanthropic and like purposes be approved by the administration, in accordance with this policy, the implementing regulations, and a fee schedule approved annually by this Board.

The Superintendent is responsible for developing administrative regulations which provide for: timely applications; uses which do not interfere with educational or extracurricular programs of the public school students; preference to local, not-for-profit organizations; and the acceptance of appropriate responsibility and liability.

These factors are to further guide community use:

- A. A certificate of insurance shall be required as appropriate to the particular use;
- B. Alcoholic beverages, illegal drugs, and tobacco shall not be allowed on school property;
- C. School facilities may not be used for any illegal purposes;
- D. Community adults and children are free to use outdoor grounds and facilities for recreation whenever not otherwise scheduled. However, formal approval of buildings and grounds use shall only be granted to recognized organizations and groups;
- E. Any approval of the use of school facilities requires the signing of a *MSAD #56 Building and Grounds Request Form* (KF-E) setting forth the conditions of use;
- F. Application for use is to be made through the Principal, with final approval determined by the Superintendent/Director of Maintenance; and
- G. Repeat use may be denied to any organization or individual who has not demonstrated appropriate conduct and care.

Facility use may be granted without rental charge, as follows:

- A. Not-for-profit educational, recreational, cultural and fraternal organizations having a significant number of members who are community residents;
- B. Not-for-profit groups which present programs which are designed to be educationally, recreationally or culturally beneficial to local citizens; and

- C. Municipal-sponsored groups and organizations.

Other groups shall pay fees (in advance) on a multi-increment scale that reflects highest amounts for groups engaging in a profit-making enterprise on school grounds.

The following may be requested of any organization:

- A. Reimbursement for incidental expenses (utilities, etc.);
- B. A deposit of \$50.00 will be paid with the application, and will be applied to the final cost;
- C. Reimbursement for property damage or equipment and any cleaning and repair costs;
- D. Reimbursement for custodian or other staff costs when necessary to the use of the facility.
